**Principia College, 1 Maybeck Place, Elsah, IL 62028**

### About Dr. Mae Jemison

**A larger-than-life force of inspiration,** Dr. Mae Jemison broke more than the sound barrier in 1992 when she climbed aboard Space Shuttle Endeavour and became the first woman of color to travel into space.

Dr. Jemison aboard Space Shuttle Endeavour.

Since orbiting in space, Dr. Jemison founded the Jemison Group, a technology consulting firm that integrates critical socio-cultural issues when designing and implementing technologies. She also leads 100 Year Starship, a bold, far-reaching nonprofit initiative to make human interstellar travel capabilities a reality within the next 100 years.

Dr. Jemison is a strong, committed global voice for science literacy and has received numerous honors and awards, including being inducted into the National Women's Hall of Fame and the International Space Hall of Fame.

**Principia College is delighted to welcome Dr. Mae Jemison to campus to speak. Her talk will center on her trailblazing journeys—in space and here on planet Earth.**

“Never be limited by other people’s limited imaginations.”

—Dr. Mae Jemison
